- Long range heat projection
- Robust modular design (1 and 2 units available)
- Lightweight and silent
- Fitted with safety guard

Models

SQ2 2.0kW

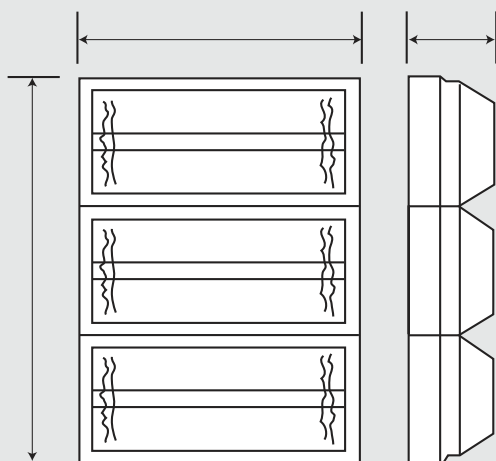

SQ4 4.0kW

Accessories

SQAD PIR Automatic Controller

The Range

The sensation and welcome of instant heat right where it is needed. Sunquartz short wave infra-red heaters warm people, not the air. Their uses are endless, from warehouses to churches. These efficient sun-like heaters can penetrate damp air with little waste to the atmosphere. A cost efficient way to heat large open spaces.
